

Some of my cross translators, interpreters and execution environments developed for my Computer Linguistics courses are:

- An Interpreter of own command based computer language for EMS Dextro Research Project (<http://dextro-research.eu>)
- An Interpreter of own command based computer language for Proprietary Graph Database Engine
- A Chat Bot based on Regular Expressions & Context Free Grammars and PROLOG Knowledge Base: (<http://gp.gpashev.com:93/CrossTranslatorWeb/indexPrologBot.php>)
- A Cross-Translator and an Execution Environment of own programming language with Bulgarian Keywords, called BG Script (<http://gp.gpashev.com:93/CrossTranslatorWeb/index.php>)
